

ISRS I-CON

Geospatial Information Technology Innovation Contest

ISRS I-CON is an innovation contest for geospatial technology enthusiasts. It is initiated by Indian Society of Remote Sensing (ISRS) to encourage students, research scholars and professionals to promote the development and dissemination of open source- based innovative solutions in the field of remote sensing and spatial information technology

Participation Criteria

- Participants may be individuals or a team of a maximum of three members having age up to 35 years.
- Registration for ISRS National Symposium 2024 is compulsory (<https://isrslucknow2024.com/>)
- A submission of brief proposal containing initial findings.
- Each individual or a team can submit one proposal only.

Awards

GOLD Cash Prize Rs. 25,000 & a certificate
SILVER Cash Prize Rs. 15,000 & a certificate
BRONZE Cash Prize Rs. 10,000 & a certificate
A certificate of participation will be provided to all the presenters qualified for second stage.

INNOVATION

Evaluation Procedure

There will be a two-stage evaluation:

FIRST STAGE: Screening and shortlisting of submitted proposals will be done by the evaluation committee. Individuals or teams with the shortlisted proposals will be notified and invited for an in-person presentation during the National Symposium. There will not be any online presentations.

SECOND STAGE: The final evaluation will be based on the demonstration and/or presentation of the overall work, including interaction with a team of jury members.

The final result shall be declared during the closing ceremony of the symposium.

Note: The teams/individuals shortlisted for presentation during the symposium are required to bring their laptop and the necessary software for demonstrating their work.

Proposal submission

Individuals or teams should submit a brief proposal following the prescribed format provided in the link:

- 1) [Submit your proposal](#)
 - 2) [Click here to download the proposal format](#)
- Late submission will not be considered for the contest.

CREATIVITY

Criteria for first stage evaluation

- Novelty and Uniqueness
- Methodology and Approach
- Desired Outcomes
- Relevance and Usefulness
- Implementation and Clarity
- Scalability and Portability

Criteria for second stage evaluation

- 3 Minute Pitch
- Quality of Output
- Clarity and Efficiency
- Demonstration and Presentation
- User-Friendliness
- Practicability
- Implementation for societal impact

Timeline

Announcement of contest : 14th October
Proposal submission : 18th November
Intimation of selection : 26th November
Final Presentation : 11th-13th December

Venue

ISG-ISRS National Symposium 2024
Remote Space Applications Centre- U.P
Kursi Road, Lucknow, Uttar Pradesh
